7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

As any other information we wish to put the following SWOC analysis of our College.

Strengths:

- A green pollution free campus amidst a serene environment as well as historical relics and monuments.
- A Strong, progressive and supportive Governing body with leading academicians having experience and expertise in the field of higher education.
- A dedicated team of teaching and non-teaching employees headed by the principal.

- High enrolment of students every year and many of them are bright and meritorious.
- The up to date technologies and facilities available in the College and used by the faculty for effective teaching.
- An automated Library with text books, rich reference books, journals, news papers, magazines, research volumes and a spacious reading room, and a Museum is attached with it.
- Adequate physical facilities for facilitating teaching-learning process.
- Sufficient classrooms both in Science and Arts Section, technology enabled learning spaces, seminar halls, departmental Laboratories and libraries, Biotech Hub Lab, Botanical garden.
- Language laboratory and psychology laboratory.
- NSS unit, NCC units (both army and navy) for both boys and girls.
- A formal and operational Career Counselling Cell.
- Various equipments for teaching, learning and research – sufficient LCDs, OHPs, Smart Boards, Video Conferencing Unit, Computers, Internet Terminals, Audio-systems, Xerox and Printers, E-Journals etc.
- A formal and fully operational Board of examination which takes all decision for conducting the internal examinations as well as end semester examinations.

Weaknesses:

- Almost all buildings of the college are very old and dilapidated condition.
- Being situated at the bank of the large Joysagar Tank, soil condition is not suitable for construction of multi-storied building.
- Problem of transport and communication.
- Most of the students belonging to rural community and much of them hailing from poor economic background.
- A few regular/sanctioned posts in both teaching and non-teaching staff are lying vacant since last three / four years.
- Autonomy has not been granted.

Opportunities:

- The College has received grant from different organizations like UGC, DST, DBT, DeitY and other Govt. Organization.
- The UGC has accorded the college the prestigious status of “College with potential for excellence” (CPE).
- Besides its general B.A. and B.Sc. programmes, there are a few Certificate, Diploma, Post Graduate programmes offered through both regular and ODL modes, which are basically professional and skill oriented in such a manner that it can facilitate its students to earn twinning /dual degree.
- The College has recently added two years B.Ed. programme recognized by NCTE.

- The college has study centres and offers various programmes under ODL mode recognized by Krishna Kanta Handique State Open University, and M.A in various subjects under ODL mode recognized by Dibrugarh University.
- The College publishes a research journal called *Journal of Frontline Research in Arts and Science* (JFR) with ISSN No. and thus the faculty and the students are getting opportunity to publish their research articles.
- Holding regular extension programmes to inspire the students to owe responsibility towards the society, and also to promote institution-neighbourhood-community network.
- Host of co-curricular and extra-curricular activities are being promoted to expose the potentialities and talents of the students
- The College publishes its prospectus annually.
- The College has a dynamic website of its own.
- In addition the routine bound regular classes, there is facility of mentoring, tutoring, remedial classes, library classes etc.
- Using the ICT tools teachers have the opportunity to make lectures more interactive.
- A learn and earn culture among the students is facilitated to face their final examinations.
- Three mutual welfare funds are running among and for the teaching and non-teaching employees of the College.

Challenges:

- Salary burden of temporary teachers and non-teaching staff on management.
- Reconstruction and/or renovation of old and dilapidated buildings with limited fund.
- Need to increase number of scholarship and freeship to economically disadvantageous students.
- Limited flexibility in curriculum designing and framing due to University affiliation system.

8. Plans of institution for next year

1. Introduction of B.Ed. programme
2. Opening of Biotech Hub
3. Enhancement of ICT infrastructure

Practice I:

- **Title of the practice:** Solidarity, Cooperation and Participation
- **Goal:** Goal of this practice is to achieve excellence in every sphere of the College through solidarity and co-operation among the authority, teachers, non-teaching staff and students, and participation of them in all activities. Four vital components of any educational institute are - student, teacher, office staff and administration. These constituent parts must create a symphony with well-balanced attitude of solidarity and cooperation, which opens up avenue for a participatory approach to achieve the desired goal of the College. To achieve the main motto of this college i.e. quest for light, solidarity and cooperation are very necessary and the intention behind this practice is to create a conducive atmosphere to achieve excellence in the institute and to create 'human resource' inspiring good citizenry.
- **Context:** Sibsagar College is one of the premier educational institutes of Assam. This institute has the pleasure of organising various academic events. Apart from doing routine academic activities like holding of classes, practical, examinations, assessment and evaluation etc, it has also organised international and national seminars, conferences, workshops, popular talk etc. and also different co-curricular and extra-curricular activities. Moreover, this institute has never compromised to improve its qualitative aspect conducting many academic programmes and for the success of such programmes solidarity, cooperation, participation and mutual understanding among all are imperative. So, it is in this context cooperation is regarded and nourished /fostered as the best practice in the institute. As the success of an educational institute lies not only in imparting knowledge within the four walls of a classroom, even though a good result is an inevitable expectation of the institute. So, along with it, to create human resource, to make good citizen who can contribute to the country and serve the nation is also another wider perspective of the college and with a view to achieve such noble intention, the institute highlights and concentrates on such best practice.
- **Practice:** The solidarity, cooperation and participation of the authority, teachers, non-teaching staff and students in some important matters related to college have created a positive impact on the smooth functioning of the college which contribute to the achievement of the institutional objectives and the quality improvement of the college.

Cooperation of everyone belonging to the college is reflected in the active participation of each and everyone when situation demands. For instance in preparation and submission of proposals and its utilization under different schemes of UGC, CPE, University, Govt and other agency like ONGC, NEC etc., faculty members are actively involved. Even they used to participate in some other activities which are usually within the periphery of the College administration such as arrears, promotion related activity, income tax matter, admission, budget, utilization etc. In some academic matters like preparing academic calendar, class routine, prospectus, functioning zonal evaluation centre of the University semester end examinations, organizing seminar, conference teachers are thoroughly involved. Moreover, in hostel management, in sports and culture, in observing special day like foundation day, teachers' day, Gandhi Jayanti, World Environment Day, in holding inter college events, in holding college election for constituting students' union body, in various activities of students' union – teachers, students, library staff, and office staff – all are involved as per responsibility entrusted to them and used to work together in a concerted way. In fact, besides these activities, the mutual funds like STWS, TMBF, Teachers' Welfare Fund, Teachers' Academic Excellence Promotional Fund etc also express 'interdependence' and unity amongst all. The promotional funds inspire, motivate and also guide the students providing financial help and extending moral support contributing to the overall development of the college.

- **Evidence of success:** As a result of this practice everything is so well managed and balanced in the institute and success of this institute becomes evident in every sphere. A few of them are mentioned below which are not at all exhaustive.
 - Preparation and submission of proposals to different funding agencies, utilisation documents etc. are always being done regularly.
 - Infrastructure development projects are being successfully and properly carried out.
 - A concerted effort of all the stakeholders of the College has been noticed in the matter of obtaining permission, recognition and affiliation from the NCTE and Dibrugarh University for establishing an institute for running teacher education programme under the jurisdiction of Sibsagar College.
 - International and national seminars, conferences, workshops, popular talk etc. could be successfully organised in which participation of large number of scholars/delegates across the nation as well as different countries especially for the international event has been noticed.
 - Inter college events like youth festival, volleyball tournament etc. Could be successfully

organised.

- **Problems encountered and resources required :**

- As in the institute semester system is going on and semester system is a system of continuous performance and assessment, so lack of time sometimes stands as a barrier in extending service in each and every activity of the college to some extent.
- Since the College was established way back in 1947, many of the old building are not in good form and they need reconstruction. But, due to paucity of fund some of them have been either repaired or partially renovated. The Government and UGC should intervene the matter and a good infrastructure should be developed as soon as possible.
- A few teaching and non-teaching positions are lying vacant due to lack of prompt initiative of the Government/ Department. This problem needs to be addressed immediately for maintaining a good working human resource capital.
- But still with the dexterous hands and minds, up till now it is well managed and because of this practice of cooperation, our college manifests victory in every sphere marching towards excellence in a harmonious rhythm.

Practice II :

- **Title of the Practice :** Research Culture:
- **Goal:** The chief objective of the practice is to foster intellectual culture, because the vitality of an institute of higher learning lies in its research activities. Because research activity can lead the institute towards the goal of excellence. The prime concern of this practice of research activities is to provide quality education to students. Because, the first and foremost presupposition for quality education is to increase the number of qualified faculty through research activity. A brilliant teacher researcher can provide the best guided tours to the most updated world of knowledge. To do something innovative in the field of knowledge and learning, research activity is really necessary.
- **The Context:** In an educational institute fertile research culture is the sign of progress, advancement in the world of learning as it increases the sum of knowledge, analytical power and faculty of argumentation. So, it obviously helps in improving the overall quality of teaching-learning situation providing updated knowledge. In our educational institute it is observed that students are from varied social group, from different background with different ability. There are some students with extra-ordinary merit and excellence with a very good result. Specially to cater the intellectual need of those students updated knowledge of the faculty is really necessary. These students are provided with advanced knowledge of latest journal and books. Thus research-education technology is interdependent, so discerning the integral connection between research and education, our institute gives focus on the sphere. In fact, it is realized that academic excellence can generate creative talent and in this context, research culture is fostered in the institute.
- **The Practice:** Among the teachers research culture is reflected in their individual research publications, Minor Research Project sponsored by UGC, Major Research Project etc. Many teachers of the college obtained Ph.D degree during this period, some teachers got opportunity to conduct research work under Faculty Development Programme sponsored by UGC. Long hours of intellectual incubation and effort are visible in the annual Research publication of the college with ISSN number. It is a good sign that many faculty members are involved in many national international research bodies and also act as peer reviewer in some refereed journal. Many research papers are

presented in seminars of national and international level. Besides, the most remarkable fact is that even the students are also touched by this intellectual adventure. Because, they are taught in the seminar class—the style of writing a research paper with proper format and citation and also the way to present a paper. Moreover, in the seminar class the students are evaluated practically in this field.

- **Evidence of Success:** It is found that a student initially with poor ability achieves tremendous success at the final stage. The students are inspired to present seminar paper under the guidance of teachers, so they are used to present student seminar in different colleges besides general seminars for all scholars. One best example of such kind of activity is apparent in the fact that students of the English major presented a paper in the International Seminar organized by the Department of English in 2012. In 2014 some of the students are allowed to attend an International seminar organized by CKB College, Teok. In this way students are inspired and motivated to take part in research activities from their learning stage. One specifically student-based programme entitled ‘Simulation’ was organized by English Department in 2010 where students act as teacher. This kind of interesting activity shows the urge of students in research activities. Moreover, books with ISBN and many research papers published in reputed journals by faculty members are the outcome of their strenuous research related activity.
- **Problems Encountered and Resources Required:** Shortage of infrastructure can be regarded as an impediment in this regard. Because, separate section is required for research activity. In addition to it, more research-based journal of international standard is required.
